+91 8179335828 | [kokkulaharika828@gmail.com](mailto:kokkulaharika828@gmail.com) | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

## PROFESSIONAL SUMMARY

Final-year B.Tech CSE student (graduating 2027) with a strong foundation in Python, Data Structures & Algorithms, DBMS, and analytical problem-solving. Built database-backed REST APIs and full-stack applications using FastAPI, PostgreSQL, and React.js during an Infosys Springboard internship, and independently with the MERN stack. Experienced with SDLC, Agile, code reviews, testing, and debugging. Solved 100+ problems on LeetCode.

## EDUCATION

**B.Tech, Computer Science & Engineering** — Kakatiya Institute of Technology and Science for Women, Nizamabad 2023 – 2027  
CGPA: 8.04

**Intermediate (MPC)** — TGMS and Junior College 2021 – 2023  
Percentage: 89.1%

**Class X** — Navajyothi High School, Korutla  
GPA: 10/10

## TECHNICAL SKILLS

**Programming Languages:** Python, JavaScript, SQL, Java (Basics), HTML5, CSS3

**Core CS Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks, System Design Fundamentals, Software Engineering

**Backend & APIs:** FastAPI, Node.js, Express.js, RESTful APIs.

**Frontend:** React.js, HTML5, CSS3, JavaScript

**Databases:** PostgreSQL, MongoDB, SQL.

**Tools:** Git, GitHub, Postman (API Testing)

**Practices:** Software Development Life Cycle (SDLC), Agile, Code Reviews, Testing & Debugging

## INTERNSHIP EXPERIENCE

**Full Stack Developer Intern** — Infosys Springboard Jul 2026 – Sep 2026

- Developed Python (FastAPI) backend APIs, database components, feature evaluation logic, and release management workflows for a Feature Flag Management and Release Control System.
- Implemented scalable features and service integrations using FastAPI, PostgreSQL, SQLAlchemy, and Redis, and built administrative interfaces in React.js.
- Participated in code reviews, Agile discussions, testing, and debugging, using Git/GitHub-based development workflows.
- Coordinated assigned tasks and resolved technical issues to meet project milestones.

## PROJECTS

**Feature Flag Management and Release Control System** Python, FastAPI, React.js, PostgreSQL, SQLAlchemy, Redis, REST APIs  
[GitHub](#) | [Live Demo](#)

- Built a centralized feature flag platform supporting 4 release strategies: boolean toggles, percentage rollout, user/group targeting, and environment overrides.
- Developed and deployed a full-stack system with FastAPI REST APIs, PostgreSQL via SQLAlchemy, and a React.js admin dashboard.
- Integrated Redis caching for faster flag evaluation and added evaluation analytics for usage insights.
- Implemented audit logging, evaluation tracking, and flag cleanup for release traceability and lifecycle management.

**LedgerFlow — Billing & Inventory Management SaaS** React.js, Node.js, Express.js, MongoDB  
[GitHub](#)

- Built a full-stack SaaS application with 8+ business modules using React.js, Node.js, Express.js, and MongoDB.
- Developed 30+ REST API endpoints for products, sales, purchases, invoices, customers, suppliers, and expenses.
- Implemented JWT authentication with 100% user-level data isolation.
- Automated inventory synchronization across sales and purchases, reducing manual stock management by 80%.

## ACHIEVEMENTS & CERTIFICATIONS

- Solved 100+ Data Structures & Algorithms problems on LeetCode
- JavaScript Certification — Infosys Springboard (Dec 2025)
- Deloitte Technology Job Simulation — Forage (Feb 2026)
